3R Telecom... about us

3R Telecom Limited, based in London, England, launched as an ETOP-Up Provider in 2001. From there 3R have grown to provide many facilities for retailers such as Electronic Point of Sale and Merchant Services.

The development of 3R Telecom EPoS and all of its features are the result of continual feedback from our customers – As the founders come from a retailing background with over 60 years of combined experience; this gives us the advantage over our competitors. Over this time a vast customer base has been built covering industries such as pubs, clubs, hotels, restaurants, CTN's, grocery stores, jewellers and dry cleaners.

You will find our range of Merchant Service solutions and EPoS solutions provide one of the best commission rates in the industry accompanied with top of the range hardware giving you a peace of mind when operating your business.

Whether you have a small, single branch business or a multi-site group, we have the products and the skills to ensure you get both the system you require and the support you demand. All installation and training is provided by fully trained in house staff. None of our Merchant Service solutions are outsourced and therefore you have the guarantee of a high quality service you deserve.

Your edge in business management.

Your edge in payment management.

One Solution... multiple possibilities

CES Touch boasts multiple functions and versatility. The wide range of modules that can be plugged into the software redefines the meaning of bespoke, making it designed and tailored to you and your business, exactly to your requirements.

- Advanced all in one EPoS software
- Stay in control of your business no matter where you are with remote access
- The most accurate business overview at any point in near real time reporting
- Split bills, table planning, caller ID and many more add-on modules tailored for your industry
- Bespoke screen design ensuring ease of use and rapid operation
- Control access to features and functionality for individual users, or groups of users
- Flexible movement operations on the fly - produce and receive orders, return items, transfer stock between locations, stock checks and adjustments
- Fully configurable business summary reports

CES Touch... key features

3rd Party Links & Integration

We offer a variety of links to industry standard apps that help emphasise the 'all in one' system. This includes hotel links, chip & PIN integration and much more.

Bookings & Reservations

If you require customers to book or reserve, CES Touch allows you to easily enter details and apply functions such as split bills, charge sheets and table planner.

Business Analytics

With cloud based intelligence you can make changes to your inventory; run a variety of reports; monitor employee activity from anywhere in the world, at any time.

Support

Constant feedback from our passionate customers is greatly appreciated and is always taken on board. Call or email us anytime or go online to our forum.

Ultimate Customisation

Alongside unique screen customisation, CES Touch also has the capability for different modules to be used to create your own bespoke software for your business.

Versatility

As we are not tied to specific hardware, we can boast plug and play for a wide range of peripherals and works well with almost any brand of hardware that you prefer.
